

MEMORANDUM

From: The Human Resources Department, Coronavirus Taskforce

To: All Employees

Date: July 22, 2020

Re: COVID-19 Update

During this pandemic, getting quick and accurate results is extremely important. In an effort to further support our employees, we have coordinated with Atmed Treatment & Urgent Care to allow our employees to use them for testing. We strongly urge any employee in need of testing to go to one of the Atmed facilities listed below as they offer 1-2 day COVID-19 test results.

If you have any of the COVID-19 symptoms and feel you may need a test, please call your primary care provider first as per the CDC guidelines. If your doctor then recommends you get tested, simply call Atmed to make an appointment. Upon arrival, a nurse will come outside and perform the test while you sit in your vehicle. These tests are covered by insurance.
